## **October Car of the Month**

Gordon & Anne Edwards - 1969 Studebaker Hawk

My 1960 Studebaker was built in South Bend, Indiana by Studebaker-Packard Inc. It has a 289 ci V8. No power steering or power breaks. (But when I'm sitting still, I never notice it.) The "Hawk" was only built for two years, 1960 and 1961. In 1956 they started the "Silver Hawk", "Golden Hawk", "Power Hawk", "Sky Hawk" and "Flight Hawk" then dropped it to just plain "Hawk". I have owned the "Hawk" since 2005. I bought it from a fellow in Walla-Walla and he was the 2<sup>nd</sup> owner. The 1<sup>st</sup> owner was related to the family that has Mar-Don Resort. It has a Ford color white paint. I love it and I know at least one other person that likes it.
