Car of the Month

April 2016 Car of the Month

Karen Crook -1992 Geo Convertible

Karen Crook - 1992 Geo Convertible

"Karen's Barbie Car"

She wanted it new at the show room - Clay's daughter told her it was a "dumb" car.

It took her three years to find a used one.

She called Clay to tell him she just bought the car and he would have to find a way to pay for it. (Clay had 7 cars at that time).

We use it in the summer and always have the top down. It gets 35 MPG on trips.
