Car of the Month

April 2017 Car of the Month

Paul & Nancy Boehm - 1978 Jeep CJ 7

Paul & Nancy Boehm – 1978 Jeep CJ 7

We were looking for an ATV for our property when we found this CJ 7 in Bickleton, WA., near the car show. It needed a lot of TLC and repairs before it was road-ready. I paid \$1500 and have put another \$2500 into it. We rebuilt the front axle, transmission and the steering system, then had it aligned. It will now go down the highway at 70 MPH without wandering across 3 lanes. It still is under construction but is a lot more comfortable than an ATV and is Hwy approved. The narrow wheel base lets me go wherever a side by side can go and yet haul 4 people. It has a 304 ci V-8 with 4 barrel and stick shift. It will throw mud 25 feet in the air when you get on it.
