Bernie & LaDell Yada - 1972 VW Convertible

Bernie & LaDell Yada - 1972 VolksWagon Convertible

I found this very special VW like a lot of people find their cars these days, on Craigslist. This one happened to be in Spokane this past March. We soon checked it out, bought it, and the seller delivered it to Moses Lake. This is when the learning curve took a turn straight up! You see there is not as much room for my feet to work the pedals as there used to be, there is less room between the steering wheel and myself as there used to be, and then there is matter of coordination of feet and mind when it comes to shifting and braking! I was initiated into the "Convertible Club" a couple of weeks ago when I ignored a dark cloud and ended up getting pretty wet! Lesson learned! This is the fifth VW we have owned over the years. The others were a 57, 66, 69, 70 and now the 72. We found it to be pretty water tight when we got caught in the rainstorm on this year's Poker Run! All in all, this VW looks great, runs well and is a blast to drive!
